PEGASUS®

# TML326 series

Post bed, double chainstitch machine

## Downsize the post bed to the limit!

It is ideal for **3D sewing**, such as **automobile instrument panel**.

Thanks to putting the post part out of the table.

**High post effect by free arm mounting!**

Special type table top

### Features

- 3D sewing, such as sewing interior automotive trimmings (instrument panels, door trims, seats, etc.) and sewing furniture, bags, shoes, leather products, etc.
- Frequent replacement of the bobbin is eliminated by changing from the conventional post bed lockstitch machine to the post bed double chainstitch machine. Therefore, on this newly-introduced post bed double chainstitch machine, continuous sewing is possible until both the needle and looper threads are used up. This feature increases production dramatically.
- Thanks to the unison feed feature (top feed, bottom feed and needle feed), this machine is suitable for sewing extra heavy weight fabrics.
- The distance from the center of the needle bar to the right side of the arm is 350 mm. The space around the arm bed is large, so handling the material is easy. This feature increases productivity.
- Beautiful stitches without any twists are produced when this machine sews interior automotive trimmings.

※The mounting style can be selected
